DETAILED ACTION

Claim Objections

Claim 43 is objected to because of the following informalities: claim 43 recites “wherein one of said at least one projection...”. This should read –wherein one of said at least two projections—to be consistent with the preceding claims. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 41-43 are rejected under 35 U.S.C. 102(b) as being anticipated by Cannon (WO 00/10625). Cannon discloses a breast shield having a funnel shaped rigid outer shell part (1) and a flexible shield part (5) conforming to and extending along the length of the funnel. See figure 2. Since the device is for a breast pump it is adapted for receiving a nipple. Two or more projections (11 and 14) are positioned in the flexible shield part in both the tubular portion and the widened funnel portion. See figures 1 and 2. The projections are in communication with a source of negative pressure and when the negative pressure is released a positive pressure is returned to the projection. See page 9 lines 20+.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
